

DOE 2020 NEWS UPDATE – JUNE 2019

Per a recent industry alignment, Heatcraft is pleased to advise an update to our regulatory website.

Reported from the Department of Energy in June of 2019:

- Supermarket applications are required to be DOE AWEF compliant if they meet the criteria of less than 3,000 sq.ft. & are a WICF.
- AWEF is **NOT** required to be printed on the rating plate (although Heatcraft will do so to protect you & facilitate inspections).

For questions on these updates or any other DOE related inquiries, please send an email to Regulatory@Heatcraftprd.com
