Energy Savings

DEFROST ONLY WHEN NEEDED

- intelliGen detects when your system needs defrost, which automates the cycles and saves energy.
- Optimizes cooling time through the fan cycling.

Operational Savings

REDUCED DISRUPTION TO YOUR BUSINESS

- Quickly diagnose issues on your refrigeration system with the intelliGen user-friendly interface.
 - Text display and turn & press knob **simplifies servicing** and **reduces overall downtime**.
- React immediately to avoid downtime.
- Save time with automatic data logging and download at no additional cost.
