

MORE OPTIONS, BETTER SOLUTIONS

NOW AVAILABLE 1 – 6 HP LG MODELS

Heatcraft is leading the industry transition from hermetic to scroll technology to provide compliant solutions for new regulations. As the only refrigeration manufacturer offering two scroll compressor options for assurance of product availability and to keep lead times as short as possible, **Heatcraft has you covered.**

SCROLL INTO THE FUTURE

THE BENEFITS OF SCROLL TECHNOLOGY*

- High quality, energy efficient compressor choices
- 85% fewer moving parts over hermetic compressors, significantly reducing failure
- 9-24% reduction in energy consumption, lowering costs
- Enhanced performance & durability over hermetic compressors
- Two proven choices for supply chain continuity
- Approved for new high glide refrigerants: R-407A/C, R-448A, R-449A
- Easy “drop-in” replacement on both models
- Standard two year warranty on LG scroll models
- Standard one year warranty on Copeland scroll models (Extended warranty available for both models)
- Excellent “after-sale” support from dedicated representatives
