

# New Preferred Option Packages for Unit Coolers by Heatcraft Refrigeration Products

With Upgraded Electronic Room Thermostat

## Time savings

Heatcraft factory mounted components save installation time on the job site by coming pre assembled with Electronic Thermostat, TXV & LLSV (See Pricebook for Preferred Option Package Codes & Pricing)

## Cost Savings

The new Electronic Thermostat comes with functionality that can be enabled in the field to act as an air defrost time clock. This allows for the elimination of the air defrost time clock on the Condensing Unit as well as wiring between the Unit Cooler & Condensing Unit (See Eg. Below)

## Upgraded Reliability

The new Electronic Thermostat provides improved reliability and accuracy over traditional electromechanical controls. Faster response time to temperature changes & more stable box temperature control

Heatcraft Worldwide Refrigeration knows that customers are looking for reliable, high quality & cost effective refrigeration equipment solutions to meet every day demands. Heatcraft has recently enhanced our product offering to include factory mounted component packages that include Electronic Thermostats, TXV & Liquid Line Solenoid Valves.

To meet those demands, Heatcraft now offers factory mounted components in Bohn Low Profile & Medium Profile unit coolers to save installation time on the job site. Low profile unit coolers with factory mounted components are stocked by Heatcraft Bohn certified refrigeration wholesalers who can recommend the exact unit to fit your needs.
